**Subject:** FW: Sky Valley Remedial Completion Report Status

Hi all,

Passing along the below FYI. Let me know if you have any other thoughts or comments. If not, I'll plan to send Sky Valley my questions on the report.

Thanks,  
Peter

Hi Pete,

I didn't find anything too concerning in the reports, a couple small things:

## Ex. 5 Deliberative Process (DP)

Zack

Hi Zack,

Could you please give the laboratory data packages in the attached report the once over and let me know if you have any comments? This is for a PCB caulk removal project that we've been assisting Region 10 with. Primarily, we're interested in the post-abatement samples (air, wipe, soil) – it may be hard to tell which are the post-abatement samples, but it's set up so the data packages come after the figures marked pre & post.

Let me know if you have questions.

Thanks!  
Pete

Michelle, Kendall, Robert, and Peter,

Attached is a cover memo and the Final Closeout Report for the PCB Remediation project at Sky Valley Education Center. The report is just barely under 20 MB, so if it as not passed along by your email server please let me know and I can share it as a Google Doc.

Respectfully,

**John Mannix**

Peter, et al.,

Devlin, Gregg Middaugh (of PBS Environmental) and I were working on the draft close out report yesterday. We had finally received the certified waste handling documentation from NorthStar (our abatement contractor, who had been waiting to receive it from Clean Harbors, their hazardous materials disposal subcontractor) to include in the report.

I have a final version of the closeout report in hand and am working on the cover memo which will cover a couple of the items you had requested during our most recent telephone conference. I will hopefully have it to you later today, but given how busy things are these days, and how my workload is greatly impacted by my need to react to issues as they arise, it may take me another couple days if there are significant interruptions.

Regards,  
John

Hello John/Devlin,

Writing in to check on the status of the remedial completion report we discussed earlier this month. Please let us know when we can expect to receive that.

Thank you,

Peter
